

THIS IS OUR MOMENT

EDUCATORS LEAD AT MSEA'S CONVENTION

SCHEDULE OF WORKSHOPS
MSEA CONVENTION 2017
OCTOBER 20-21 | OCEAN CITY, MD

Instructional Strategies

Workshops highlight the resources and techniques educators need to engage students and improve academic achievement. Technological, tactile, and rigorous strategies are featured. Get inspired at workshops that address the challenges you face in your classroom every day.

Supporting Early Career Educators

These workshops are designed to help us help each other. Whether you are an official mentor/coach, or just want to give back by helping the new teacher in the classroom next door, you'll find techniques that you can use to support our newest colleagues.

School Counselor

Open to ALL educators, workshops in this strand are designed and delivered by school counselors to facilitate relationships, address inequities, and build understanding of our most vulnerable students.

Classroom Culture

Effective educators often cite strong student/teacher relations as key to a conducive learning environment. These workshops focus on various aspects of cultivating a culture of emotional and psychological support that creates safe places for students to learn.

In the case of emergency, contact Convention Center staff immediately. Each staff member has direct radio contact with Ocean City's emergency dispatch and can call with their radios.

The Convention Center is equipped with AED (defibrillator) machines on each level:
First level: Near the elevators **Second level: Near the escalators**

The Atlantic General Hospital is located approximately 13 miles away in Berlin, MD. A standard first aid kit will be located at the Women's Concerns Committee booth in Hall B.
