

#### **Tabling On Campus**

Why We Table

- 1. Recruitment
- 2. Increase Visibility

#### Organizing a Successful Tabling Event - Setup

Best Practice #1 – Go where the people are. Or at least the people you want to talk to are. This may be outside the student union or inside the education building. On a lot of campuses there are specific places you can table, check your campus for rules.

**Best Practice #2 – Table when the people are around.** Every campus is different especially if you have large amounts of commuters, non-traditional students etc. However, as a rule of thumb 10am-3pm will hit most people.

Best Practice #3 - Prepare your materials / visuals / fun factor ahead of time.

Your materials may include interest cards, clip boards, and pens. / The visuals may be a banner, large posters etc. / Fun factor?! Think candy, swag giveaways, music, bubbles really anything you think is fun!

See Appendix A for visibility and examples of good tables.

**Best Practice #4 – Recruit people to do it with you.** Tabling with other people is more fun and allows you to talk to more people. \*Think two-hour shifts, with teams of two at least.
