

## MSEA Board of Directors (Region 3):

**Danillya Wilson**  
**Position: Teacher**  
**Local Association: MCEA**

I am running for the MSEA Board of Directors because I am committed to serving as a fierce advocate at all levels for the needs of both educators and students. Strong unions need leaders who show up and step up, who seek creative, inclusive solutions to problems, and who represent a broad range of perspectives. As the current secretary of MCEA, I know what it takes to work collaboratively with all stakeholders to build union power. As a veteran first-grade teacher, I understand the importance of building a strong educational foundation for children and the impact it has within our communities. I am committed to empowering marginalized voices, increasing involvement to elevate our profession, and inspiring the next generation of union leaders. I look forward to advocating for educators and students across Maryland as an MSEA director.
