

MSEA Board of Directors (Region 6) Candidates

James Henderson

Position: ESP

Local Association: ESPBC

This is James Henderson asking you to allow me to represent you, our county, and our state by electing me to serve as Baltimore County's Region #6 member on the MSEA Board of Directors. For the past several years, I have gained positive recognition from my peers from my local, my state, and across the country; especially from those I have served with on MSEA and NEA Resolutions, the latter of which I now serve as NEA IEC Chair.

When did public educators become the enemy? When did the public start doubting our abilities to educate their children?

Someone must be willing to advocate for all public educators and change this narrative. I am asking you to give me the chance to do just that. I take educator concerns seriously and am asking you to elect me to fill the position of MSEA Region #6 Board Director. Elect James Henderson!

Cindy Sexton

Position: Teacher

Local Association: TABCO

As an elementary librarian for 18 years at Villa Cresta in Baltimore County, I always strived to be sure my students had what they needed to be successful, knowing that success does not look the same for every student. It was important to meet my students where they were, and to do all I could to instill not only a love of reading, but a love of learning.

Now in my fifth year as TABCO president, I have been led through a pandemic, ransomware attack, and more pivots and switches in planning, programming, and instruction than any educator should ever have to. Representing the best interests of all educators and our students has been a great honor. We continue to grow our advocacy yet there is still much to do. It would be my privilege to represent Region 6 to continue to grow our power and strength as a union.
